Rene,

On Wednesday, September 18, 2013, Groundwater samples were collected from DC-07, YVD-14, DC-03D, and DC-03

via low flow sampling methods. Wells YVD-09 and YVD-08 were scheduled to be sampled yesterday; however, access to the wells was limited by dairy machinery working in the area (e.g., road blocked by irrigation pivot [YVD-08] and truck traffic [YVD-09]). ARCADIS will sample these wells in the next day or two when less activity is evident. The ARCADIS field team will continue groundwater sampling activities on Thursday, August 19.

Please let me know if you have any questions.

Thank you
